

LEATHER COORDINATOR

Company Profile

www.leathercoordinator.com

LEATHER COORDINATORS ABOUT US:

The business was founded in 1970, making it one of the older tanneries and leather garment unit in our region. Production has evolved over time in accordance with vogue trends, creating and developing new cutting-edge products intended to satisfy an ever-more discerning market segment.

CAPACITY:

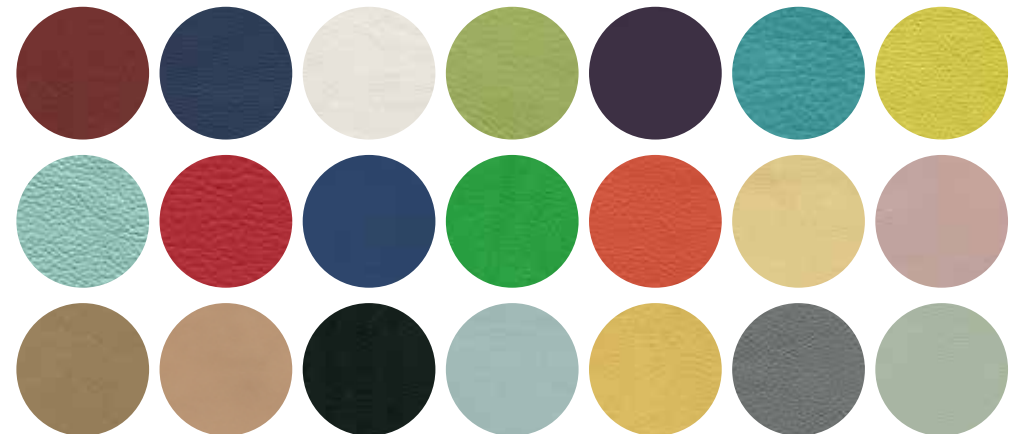

We have the capacity to produce up to 1.2 million square feet of high-quality leather products each month. This impressive capacity is made possible by our advanced technology and skilled team of professionals, who work tirelessly to ensure that each product meets our rigorous standards for quality and durability.

TANNERY: INTRODUCTION:

Welcome to our Leather Manufacturing Unit, where we pride ourselves on being both an LWG (Leather Working Group) certified tanning unit and an SLF (Sustainable Leather Foundation) Partner. We are the only manufacturers of sustainable leather in Pakistan, we are dedicated to providing high-quality leather products that meet the needs and demands of our customers.

Our team is committed to sustainable practices and ethical production methods, ensuring that our products are not only beautiful and durable but also environmentally responsible. With years of experience in the industry, we have honed our craft and built a reputation for excellence, making us the go-to choice for anyone in need of premium leather goods.

MACHINERY:

We are proud to offer the latest in state-of-the-art machinery for leather manufacturing. Our advanced technology allows us to produce a wide range of high-quality leather products, including vegetable, chrome, chrome-free, and aldehyde-tanned leather.

RAW MATERIALS:

We believe in using only the best materials and methods, which is why we prioritize the use of chemicals that are Azo-free and have passed the REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) test. Our commitment to quality and sustainability is reflected in everything we do, from sourcing raw materials to the final product.

QUALITY CONTROL:

We established strict quality control measures at every stage of the process to ensure that each product meets our high standards for quality and durability. The process begins with the selection of raw materials, which are inspected and tested to ensure they meet specifications. Skilled technicians closely monitor the tanning and finishing processes, and advanced testing equipment is used to check the leather's strength, thickness, and finish.

Rigorous checks and inspections are conducted on final products to identify any defects or flaws. Any products that do not meet the standards are flagged and set aside for further inspection or corrective action. The company prioritizes quality control to ensure that customers receive only the finest leather products that meet their expectations.

GARMENTS UNIT: INTRODUCTION:

Welcome to our leather jackets manufacturing company, where quality and customer satisfaction have been our top priorities for the last 40 years. Our company is BSCI (Business Social Compliance Initiative) certified, which is a testament to our commitment to fair working conditions and ethical manufacturing practices.

CAPACITY:

We have a monthly production capacity of 25,000 garments, ensuring that we can meet the demands of our customers in a timely and efficient manner. Our team of skilled artisans and craftsmen use only the finest quality materials to create leather jackets that are not only stylish but also durable and long-lasting.

MACHINERY:

At our leather jackets manufacturing unit, we have high tech 800 stitching machines of high end brands like JUKI, Brother, Sunshine etc to ensure the highest quality standards and efficiency in our production process. Our state-of-the-art machinery is designed to cater to the specific needs of leather jacket manufacturing, and we employ skilled technicians to operate and maintain them.

In addition to these machines, we use other specialized tools and equipment like leather skivers, leather sanders, and leather burnishing machines to achieve the desired finish and texture of the leather.

Our commitment to using modern and efficient machinery, along with skilled technicians, ensures that we can deliver high-quality leather jackets to our clients in a timely and efficient manner.

COMMITMENT TO CUSTOMER SATISFACTION AND INDUSTRY LEADERSHIP:

We take pride in our longstanding partnerships with top brands of Europe, which have helped us establish ourselves as a trusted and reliable name in the industry. Our focus on innovation and continuous improvement has allowed us to stay ahead of the curve and meet the ever-changing needs of our customers.

At our company, we believe that every customer deserves the best quality leather jacket, which is why we strive to provide unparalleled customer service and support. We are committed to providing our clients with a seamless and hassle-free experience, from the initial consultation to the final delivery of their orders.

QUALITY CONTROL:

We are maintaining a high level of quality control to ensure that our products meet the expected quality standards. The following are the details of quality control procedures that we are implementing in our company,

- Raw material inspection
- Cutting inspection
- Sewing inspection
- Finished product inspection
- Quality control documentation
- Employee training

In summary, we implement a comprehensive quality control process that covers all stages of production, from raw materials to finished products. We are maintaining documentation of the quality control process and provide training to employees to ensure that our products meet the required quality standards.
